

A short report from Aurélie Trouvé. Co-President of Attac France.

I would like to report very quickly the results of our EU related activities during previous days.

On the 24th March there was a conference on the 10 principles in Paris ("Attac réveille l'Europe!" or "Attac wakes up Europe!") with Gerold Schwartz (Attac Germany), Willem Boss (Attac Netherlands) and Nicolas Malagardis (Attac Greece). The coverage by the media was almost non-existent in spite of the press conference on Friday. But we were very happy with the people who came to the conference (more than 300 persons, after another conference of Attac France during the day - about the ecological and social questions - also with more that 250 persons), the quality of the debates and the friendly atmosphere (with concerts, in an alternative place,...). We also sent on Monday a response to the declaration of Merkel for the press. Finally, yesterday, in the meeting of the "founders of Attac France", it was decided to propose some points to continue this campaign at the national and the European levels :

I will communicate this to you as soon as I have the precise minutes of this meeting.

Warm regards,

Aurélie.
